### *serving up cultural food trends*

While hot pots have been an essential part of the Chinese dining culture for centuries, this unique concept has become a fast-growing restaurant food trend and we have two great options to accommodate. Our large hot pot is divided into 2-quart sections, allowing for two different broths to be simmering in the same vessel, making this a versatile option for diners who enjoy variety. While the small 1.6 quart hot pot is the perfect size for a small tabletop, and both sizes can be used with optional heat element bases or on induction cooking surfaces.

chafing dishes at a phenomenal price point

We are pleased to bring hydraulic closing chafing dishes to the Creations collection. Each chafer has a convenient large glass view in the cover in order to increase visibility of the food while minimising the times the lid is opened, therefore keeping the heat in and the food at proper serving temperature. Additionally, the easy-to-remove hydraulic lid closes on its own to ensure that food is kept safe and covered during service. Great for any buffet display, these chafers are induction capable and perfectly priced for even the most value-conscious operators.
