THE ART OF PRESENTATION

You're not just setting a table. You're creating an experience, telling a story, sharing a culture – and food is at the heart of it. Food brings people together and connects them to tradition and inspiration.

At Steelite, we believe that tableware should do more than serve your food – it should serve your vision. We design, craft and curate the very best in tableware for chefs and concepts across the globe.

Partnering to create an unmatched range of inspired tabletop experiences where shape, color, texture, light and weight combine to feed the senses. Helping our customers set the stage for their menus and their brands. Elevating presentation to an art.

THE ART OF PRESENTATION

Ceramics have been woven into the fabric of Sam Gordon's life for as long as he can remember. Born into a multi-generational family of potters, Sam grew up immersed in the rhythms of production pottery, developing deep technical expertise over the decades. While he mastered the science of ceramics, his true passion lies in the organic, almost living nature of clay.

Sam lives off the grid with his wife, Carrie, and their three children on a property that borders a national park, an environment that constantly inspires his work. His studio, nestled in this natural setting, is where he creates original pieces by hand on the potter's wheel. Blending artistry with utility, Sam's ceramics are intended as functional art, pieces that are both beautiful and built to endure the demands of restaurant service. Each creation reflects a deep respect for craft, nature, and the tactile experience of handmade pottery.

Where Earth Meets Flame

Fire from Off Grid Studio is designed by Potter Sam Gordon to blend the look of hand-crafted pottery with modern durability. Inspired by the raw beauty of woodfired ceramics, *Fire* captures the essence of this traditional process, where wood is the sole fuel and the kiln requires constant attention to reach and maintain high temperatures. As the wood burns, its natural minerals vaporize and interact with the clay, creating organic, brush-like glaze effects that only nature can achieve. Offered in three semi-matte glazes, Smoke, Timber, and Ember, each piece is intentionally reactive, showcasing unique highlights, subtle color shifts, and one-of-a-kind edge details. Available in nine shapes across coupe and presentation-style profiles, *Fire* pairs timeless craftsmanship with functional elegance for today's tabletop.

"Wood fired ceramics is in my opinion the truest form of pottery; the clay is dug from the earth, touched by hands and transformed by fired wood." ~Sam Gordon

Smoke

Light gray tones with smoky white highlights and brown reactive edging

The Essence of Hand-Thrown Stoneware

Gembrook consists of two colors, creamy white and deep gray, where each item is decorated with a sheer white, hand-applied glaze, allowing the beauty of the clay to show through. The bottom of each piece and small portions of the top are unglazed, to authenticate where the potter would hold each piece while glazing, resulting in double dips, drips, and exposed clay lending to its hand-thrown authenticity. Meanwhile, a handful of pieces flaunt a distinct indent, which mimics the thumb mark of the potter and creates a conversation piece for diners.
